Thank you, Arnold, for the quick response. To avoid confusion since these containers don't store PFAS, are you ok with a more general statement?

Importance: High

Hello, Arnold,

OPA has started receiving inquiries regarding PFAS and FDA's release of the FDA In Brief titled *FDA Reminds Industry of Specific Regulations for the Use of Fluorinated Polyethylene in Food Contact Containers*, and has asked for an updated desk statement. OPA needs the statement today.

Can you please review and provide any comments/edits ASAP? Cheryl will need to clear OCSP IO. Thank you!

Where are we on dusting off this statement? OPA asking.

In checking with Kimberly and Thuy, an ACB chemist did have communication with FDA chemists recently, but only regarding analytical techniques and methods. No one was contacted or involved with the below.

I'll check on the statement.

Sorry for another email. We should be prepared to respond quickly to where we are in our investigation so lets dust off that statement and make sure it's up to date. Thanks.

I've already sent a note to Kimberly and Thuy to find out more. I'm thinking it was Thuy because she mentioned in the OPP General yesterday with Michal that she has a friend over there that gave feedback on the our methods.

Hello Shamus – I work with Tara Rabin in the FDA Office of Media Affairs. We wanted to let you know that tomorrow afternoon, the FDA will be issuing the attached FDA In Brief (FIB), titled *FDA Reminds Industry of Specific Regulations for the Use of Fluorinated Polyethylene in Food Contact Containers*. The FIB mentions the EPA in the third bullet. We know that the SMEs from FDA and EPA have been in touch, but we just wanted to flag this for you as well. The FIB will post here: [FDA Newsroom | FDA](#).

Thank you,

Kim
